Vintage Speedmaster Market Report · Week of September 27, 2026 – October 3, 2026

THE WEEK AT A GLANCE

A genuinely quiet week: zero verifiable realized sales across all nine vintage references, September 27-October 3. No auction house published an in-window result for any of the nine refs; the one Catawiki Ed White lot that closed October 2 never showed a hammer price; eBay's only auction action was a 0-bid end (105.012) and a pre-moon bid still running past the window. Asking prices held firm everywhere - the market is listed, not traded.

Methodology

Realized prices are sales confirmed as completed with a published price. Asking prices are current dealer listings, labeled as such and never mixed with realized figures. Prices are reported exactly as listed; no currency conversion was applied. References with no verifiable in-window sales are reported honestly. See the full methodology on speedmastergonzales.com.
