

Speedmaster Gonzales™

Vintage Speedmaster Market Report · Week of October 25 – 31, 2026

THE WEEK AT A GLANCE

Zero verifiable realized sales across all nine references, October 25–31: the marquee auction season has not started (Phillips Geneva XXIV opens November 6, Christie's Geneva follows November 10), eBay's sold filter was bot-blocked, the timed platforms printed nothing in-window, and asking prices mostly held — CK 2998's median jumped on mix while the 145.022-71's eased. The Bulang tropical Ed White stayed off the board for a second week at a €19,000 last-seen ask — a removal, not a result.

CK 2915

1957–59 · calibre 321 · Broad Arrow

No verifiable realized sales recorded this week.

Market note — No verifiable realized sales. Glass Case median asking \$73,838 (n=2, \$52,676–\$95,000 — asking only), essentially flat on last week's \$73,888; supply at this level stays at two tracked listings. A Chrono24 listing at \$6,276 describes itself as a CK 2915-style build from a 2018 FOIS donor — not a 1957 original, and never a comp.

CK 2998

1959–63 · calibre 321

No verifiable realized sales recorded this week.

Market note — No verifiable realized sales. Median asking \$39,359 (n=14, \$15,968–\$143,235, asking) — up from \$26,733 last week; at n=14 that is mix, not momentum. Bulang's straight-lug example (w1083, €14,950 live on October 25) left the board on October 26 and stayed absent all week; Bulang's 2998-61 (w3782) came back LIVE at €23,900 on October 28 after a spell on hold.

ST 105.002

1963 · calibre 321

No verifiable realized sales recorded this week.

Market note — No verifiable realized sales. Median asking \$22,100 (n=12, \$8,510–\$31,885, asking), down from \$27,699 last week on a similar count — mix rather than movement. Analog:Shift's example flipped LIVE to a SOLD badge and back to LIVE during the week at \$32,770–\$33,477 asking: status churn with no dated sale published, not counted as a sale.

ST 105.003

1964–65 · calibre 321 · “Ed White”

No verifiable realized sales recorded this week.

Market note — No verifiable realized sales. Median asking \$13,844 (n=26, \$135–\$41,110, asking — the recorded

range includes a low-end outlier), flat on last week's \$13,653. Bulang's tropical-dial Ed White (w3754, with Extract of the Archives) stayed off the board all week — a tenth consecutive night on October 30, last seen live at €19,000 on October 20; no sale price or date has ever been published. Grailzee's \$15,000 Ed White buy-now left the board October 25 and returned October 27.

ST 105.012

1964–69 · calibre 321

No verifiable realized sales recorded this week.

Market note — No verifiable realized sales. Median asking \$15,000 (n=29, \$5,995–\$98,500, asking), flat for a second week. Catawiki's 105.012-66 lot stood open at a €2,950 current bid on October 30 and closes November 4 — a bid, not a sale. An Omega Forums 105.012-64 at a \$9,250 ask was edited to 'Withdrawn' on October 29 — explicitly not sold.

ST 145.012

1967–69 · calibre 321 · incl. 145.012-68 transitional

No verifiable realized sales recorded this week.

Market note — No verifiable realized sales. Median asking \$9,864 (n=32, \$40–\$181,503, asking — both extremes of the recorded range are outliers), essentially flat on last week's \$9,995. Analog:Shift's 'Michael Collins' 145.012-68SP sat RESERVED at \$15,750 all week — reserved is not sold. A Chrono24 search snippet labeled a 145.012-67 'sold' at \$23,975 with no date anywhere and the page behind a sign-in wall — excluded, never counted.

ST 145.022-68

1968 · calibre 861

No verifiable realized sales recorded this week.

Market note — No verifiable realized sales. Median asking \$9,597 (n=9, \$6,243–\$10,574, asking), up from \$9,099 last week on a thinner count; last month's €3,100 Catawiki no-reserve print remains this reference's most recent verified realized comp.

ST 145.022-69 pre-moon

1969–71 · calibre 861 · “pre-moon”

No verifiable realized sales recorded this week.

Market note — No verifiable realized sales. Median asking \$6,948 (n=30, \$3,200–\$24,500, asking), flat on last week's \$6,909. Bulang's w3965 was flagged off the board on October 30 (last seen at an €8,250 ask on October 29) — stated plainly, its live existence rested on a single first-pass sighting that later full paging never reproduced, so the flag records the sweep's own record, not a departure anyone verified.

ST 145.022-71

1971–74 · calibre 861 · incl. “No NASA” caseback

No verifiable realized sales recorded this week.

Market note — No verifiable realized sales. Median asking \$6,049 (n=14, \$3,976–\$10,970, asking), down from \$7,240 last week. Chrono24's 'No NASA'-titled example (32351078) was page-verified at a \$10,970 ask on October 30 — asking only. Catawiki's in-scope lot opens November 1, after this window. No 'No NASA'-titled sale was verified this week.

Methodology

Realized prices are sales confirmed as completed with a published price. Asking prices are current dealer listings, labeled as such and never mixed with realized figures. Prices are reported exactly as listed; no currency conversion was applied. References with no verifiable in-window sales are reported honestly. See the full methodology on speedmastergonzales.com.
